

HJF MEDICAL RESEARCH INTERNATIONAL, INC.

VACANCY

JOB TITLE: HIV Testing Services Program Officer

Henry Jackson Foundation for Medical Research International (HJF MRI) HIV Program-Kisumu West in collaboration with the USMRD-A, is seeking to fill the above position. HJFMRI conducts HIV / AIDS vaccine and therapeutic research, and supports HIV prevention, care and treatment programs in Kisumu West and Seme Sub counties of Kisumu County.

Job Summary: The incumbent will be responsible for HIV Testing Services (HTS), PrEP and GBV services for PEPFAR Kisumu West and Seme Sub counties of Kisumu County. The position involves working with PEPFAR partners, relevant stakeholders, and Government departments to ensure provision of quality services. S/he will also offer Technical Assistance to Kisumu West PEPFAR partners on HIV Prevention Programs and activity implementation. Technical duties include leading efforts to ensure that HTS, PrEP and GBV services are based on the most recent, relevant and science-based approaches, particularly Identification and Linkage of HIV Infected individuals to treatment.

Terms of Employment:

Eight month contract renewable on annual basis subject to availability of funding. The first three months will be probation period.

How to Apply:

Submit a CV, mandatory cover letter, testimonials and list of references as attachments in a zipped folder with the applicants name and sent to nairobijobslogin@hjfmri.org by 18th January 2019. The email subject line should be "HIV Testing Services Program Officer". Kindly include current and expected salary and your earliest date of availability on the cover letter.
